PROFESSIONAL SUMMARY

Motivated Software Engineer Trainee with hands-on experience designing and developing scalable full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong understanding of JavaScript (ES6+), REST API development, JWT authentication, and responsive UI design using Tailwind CSS. Skilled in building production-ready applications, implementing efficient backend logic, and creating clean, user-friendly interfaces. Familiar with Agile development practices, version control, and modern web development standards, with a focus on writing maintainable code and continuously improving technical skills.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, React Native, Tailwind CSS, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB
Tools & Practices: Git, GitHub, Agile Methodology, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Software Engineer Trainee Feb 2026 – Aug 2026 (6 months)
Cloud Forest Innovations, Kowdiar, Trivandrum

- Successfully completed a 6-month training programme as Trainee – Software Engineer (24 Feb 2026 – 24 Aug 2026).
- Gained practical exposure to software development and the day-to-day responsibilities of a Software Engineer.
- Developed an understanding of professional work practices while being associated with the organization.
- Recognized by the organization for contribution, dedication, and efforts during the training period.

MERN Stack Intern Jun 2025 – Feb 2026
Luminar Technolab

- Developed responsive user interfaces using React and Tailwind CSS.
- Implemented REST APIs using Node.js and Express, and worked with MongoDB for database operations.
- Contributed to real-world projects including an online Book Club application and a sports community platform, focusing on CRUD operations, authentication, and API integration.
- Strengthened understanding of JavaScript, component-based architecture, backend logic, and collaborative development practices.

PROJECTS

Sportify | MERN Stack, Full-Stack Web Application

- Developed a full-stack sports community web application using React.js, Node.js, Express.js, and MongoDB, enabling users to discover and book sports turfs, create teams, organize tournaments and events, and manage player profiles.
- Implemented RESTful APIs, CRUD operations, user authentication, database integration, responsive UI/UX, form validation, and role-based functionality for an interactive and scalable web platform.

BookClub | MERN Stack, Book Marketplace Web Application

- Developed a responsive book marketplace web application using modern JavaScript technologies, allowing users to browse, search, buy, and sell books through an intuitive user interface.
- Implemented REST API integration, CRUD functionality, product/listing management, database operations, responsive design, and reusable React components for a seamless user experience.

BuildManager | Mobile Application

- Developed a construction management mobile application that helps contractors manage clients, purchases, expenses, income, calculations, and project-related information from a centralized platform.
- Independently built the entire frontend of the application, with a focus on an organized, user-friendly interface, responsive layouts, usability, and efficient data management.
- Collaborated with a senior developer on backend development and API integration, gaining experience in team-based development workflows.

School Web App | MERN Stack, School Management System

- Developed a school management web application connecting students, parents, and teachers through a centralized digital platform for student information, academic activities, communication, and administration.
- Implemented React.js components, REST API integration, database management, CRUD operations, responsive UI/UX, and structured data handling to simplify school management processes.

EDUCATION

Bachelor of Science (B.Sc.), Botany Jan 2019 – Jan 2022

University of Kerala, Thiruvananthapuram

- CGPA: 8.01/10
- Relevant Coursework: Computer Fundamentals, Data Interpretation, Environmental Studies, Statistical Analysis.

Higher Secondary Education Jan 2017 – Jan 2019

G.H.S.S, Cherunniyoor

- Percentage: 82%

Secondary School Leaving Certificate (SSLC) Jan 2016 – Jan 2017

G.H.S.S, Cherunniyoor

- Percentage: 94%

CERTIFICATIONS

- ME(A)RN Stack Web Development Expert – 2026
- Introduction to Artificial Intelligence – Coursera
- Certification in Data Entry and Console Operation – 2022
